

GIVING TOMORROW'S WORKFORCE THE TOOLS TO SUCCEED!

LSI's Education to Employment (E2E) Program is a skills development initiative to provide Pre-Employment Transition Services to TWC VR Customers and potentially eligible customers who meet the definition of a Student with a Disability at accessible locations statewide. The E2E Program is a year round approach to Pre-ETS where a skilled Career Advocate (CA), appointed by LSI, works alongside the student to determine a career pathway. Our CA's implement a student led approach to removing barriers by providing services that will aid the student in gaining the skills necessary to enter the workforce.

WHAT SERVICES ARE INCLUDED?

- Job Exploration Counseling
- Workplace Readiness
- Counseling on Post-Secondary Training Opportunities
- Self-Advocacy
- Work-Based Learning

PROVEN APPROACH

Our E2E Program has been providing Pre-ETS to eligible and potentially eligible VR students since January 2017 in Utah. With over 7.5 years of experience we have provided services to over 3,000 students. The E2E Pre-ETS Curriculum is student led and focuses on the individual needs of each student.

Currently able to provide Virtual Pre-Employment Transition Services in Texas!

TWC Vendor #205135253-7-000 LSI Business Development, Inc.
